BROOKSIDE

Memory Care

OUR HERITAGE

Brookside Memory Care is an independent and locally owned state of the art senior care community; specializing in Alzheimer's and Dementia. Our family heritage in the senior care industry dates back to 1985 with my mother Elena, who owned and operated a senior care home. Being a child at the time, I remember living with what I considered multiple sets of grandparents. What I remember most is witnessing my mother's incredible care which she demonstrated with an abundance of love, compassion, and respect. She always put the resident needs and concerns first.

OUR COMMUNITY

“ My dad was recently placed here, and the staff are so amazing. They really go above and beyond. It’s nice to know that they treat my dad so kind and sweet. ”

- Cami E.

Prior to my mother’s retirement, my wife and I transitioned into ownership of her care home. We had the opportunity to learn a tremendous amount from her 30 year career. It was during this time Brookside was conceptualized. Ten years later, we took the same values and established Brookside Memory Care. Our vision was to shine as one of the great providers in this industry.

What makes us unique is that we have combined all the benefits of a small family like model and brought it into a community like setting. Our residents enjoy the support of an elite team which includes a medical director, on-site nurse, full administrative staff, full time activities director, personal chef and fun loving care providers.

We are large enough to meet your needs, yet small enough to feel like home.
